after all snakes disappear, i look to my bag i found ropes and bandage and i collected some big enough stick, and i hold together one of the bones that fractured and return to its position because am afraid , by believing that biggest snake, it might need meal enough to satisfy it, and this sound like am a meal barry !

i dont want to be a meal or all my exploration to be ended here, i got a lot to discover,

so i decided to walk slowly touching trees and wall of that hole, i don't want second night to catch me here, suddenly i slept down that cause me a lot of pain and when i wake up , i lost memory, include which tunnel big snake was entered , and which one not !

so everning is start to enter..... still i fill pain , no way ! i said

i decided to take one of this tunnel picking randomly , its cold and silence and when i look forward its pitch dark , at the time am thinking ..... a very huge snake run after me, i decided to use stick to support other leg while am running and at the time am running , i was stun by seeing in front of me another two tunnel inside one , i dont know which is which to follow !

in a split of second i chose one, and i started to run while i use walls or touches branch of trees as torch , i ve no idea why am running because, i have no memories.....

but every time i here, sound i just running..... into a darkness corners or behind the trees inside the tunnel assuming as shielding or hiding ground

as i hiding behind big stone the big snake pass me like train

so, i decided to run back instead to squire one, at the beggining of the door of those tunnels so that i can start with lack choice again, and now for the fist time dark is engulf on the open roof of hole itself.
